RECEIVED

JUL 1 4 2003

SIR:

Kindly amend the above-identified pater GROUP 3600 application as follows.

## In The Claims

Cancel claims 1-3, 5 and 9-13.

Add the following new claims 14-18.

--14. (New) A joining structure that is reinforced by welding a columnar structural member to a base plate or a coupling flange via reinforcing ribs, characterized in that: said reinforcing ribs are tabular members gradually bent into a shape of U or V along the surface of said columnar structural member; and said gradually bent portions having the shape of U or V protrude
